

Nov 7, 2023 | 📅 Weekly Group Meeting

Attendees: Eddie Kiernan Wei Jiang Helen Garabedian Justice Asamonye Amber Perillo
Estelle Girard

General Notes

- On Track = database and APIs done by next tuesday
- We are still figuring out API key and how that is going to work
- Deciding if we should use open AI or a free one
- Still having trouble with GitHub
- Individual tasks should be done before meeting on next tuesday

Since last meeting

- Set up GitHub repo
- Figured out group communication

Decisions made

- We are starting with Backend
- Using fetch api

Action items -> Database APIs

- ☐ Decide if we want to do the extra credit (submit by nov 30 or dec 11)
- ☐ Style guide
- ☐ Book recurring meeting room for weekly team meetings
- ☐ How do we want to store our pdfs

Agreed on individual tasks for the week

- Eddie - creating login/registration
- Justice - create logout page
- Wei - algorithms for classes / components
- Estelle - create header / footer pages
- Amber - create api for login/logout/register
- Helen - create how to page

Upcoming Meetings

- Thursday 11/9 in recitation
- Tuesday Nov 14, 2023 4:00 PM in Engineering Success Hub
- Tuesday 11/14 Nov 14, 2023 5:00 PM over Zoom with Cory
