Nov 14, 2023 | 🗓 Weekly Group Meeting

Attendees: Eddie Kiernan Wei Jiang Helen Garabedian Amber Perillo Estelle Girard
Attached files: 📄 11.07.23 Group Meeting Minutes

General Notes:
- Package lock not working
- Week 3 on track - Application server

Accomplished Last Week:
- Login and registration API's, dependencies imported, started server section, and implemented middleware authentication
- Header, footer, and menu pages
- How to page created
- Logout Page

Goal for next week:
- Login and register pages function correctly
- After logging in, summarizer functions correctly (can upload pdf and uses google API to summarize the PDF) & makes sure that it displays correctly

Reach Goal:
- History page is developed and functional (you can see previous queries and click on them)

Future:
- Figure out meeting over fall break (during recitation)
- Test prototype of website
- Implement other pages like history, and start settings page
- Figure out google API stuff (frontend)
- Check backlog on project board github

Upcoming Meetings:
- Thursday 11/16 in recitation
-
